

Digiroad publication 2014/4 by export areas (regions or parts of regions)

- The data is divided into 32 export areas (regions or a part of a region). The data is in zip-files.
- The directory also includes Irrotusalueet_2014.pdf –picture file of the regions.
- The data is divided to export areas and municipalities according to the situation in the beginning of the year 2014.
- The data is in EUREF-FIN –coordinate system as geographical coordinates.
- Dokumentit-directory (=Documents) includes
 - Digiroad_Quality_report_2014_4.pdf – document is a description of the quality of data in general and of the quality of the data objects as well as quality results (in Finnish).
 - Description_of_Digiroad_Data_Objects_37.pdf-file represents the structure, data objects and delivery formats of the Digiroad data.
 - Koodisto (The codes) are in two different formats:
 - The most important codes and their descriptions are in the Description_of_Digiroad_Data_Objects_37.pdf –file in Appendix 4.
 - Digiroad_koodit_pitkä_110405.xls and Digiroad_koodit_pitkä_110405.dbf –files are comprehensive e.g. municipality codes and names are included
 - DIGIROAD_KUNTA.dbf –file includes the language situation in each municipality (primary, secondary) as mentioned in the code list. The municipality language information can be used to utilize the Name – information.
 - KuntalrrotusalueMaakunta.dbf –file represents in which export area and region the municipality belongs to.

The public transport stops date back to the Digiroad-publication 2013/4.
